Hi,

My name is Marites with TexPIRG, the statewide public interest advocacy group - we're looking for talented student activists to join our team of interns. [Click here to learn more and apply: www.studentpirgs.org/internships](www.studentpirgs.org/internships)

We're working to protect clean air by limiting coal plant pollution, get big money out of politics, and bring more public transportation to Texas.

As an intern with TexPIRG, you'll learn how to build and lead teams of volunteers, organize events on campus, and work with the media. And you can even earn course credit!

[Check out our website for more information and to apply online: www.studentpirgs.org/internships](www.studentpirgs.org/internships)

Please forward this email to other student organizations and friends who may want to participate, and let me know if you have any questions.

Thanks,
Marites Velasquez
Field Organizer
TexPIRG
